

### [Mammoth Elite Sport Mattresses](#)

Go now to [www.mammothsport.com](http://www.mammothsport.com)

Already being used by England Internationals as well of some of our best known Olympic Athletes, read on for more information on why Mammoth Mattresses are so beneficial to athletes and why they are endorsed by the Department of Health.

#### **Advanced technology**

Mammoth's roots are in designing mattresses for elite athletes to assist optimum biological performance. The revolutionary high specification foam that makes Mammoth unique and superior to traditional memory foam products has been scientifically tested and endorsed by the Department of Health.

#### **Superior comfort, deep sleep and body repair**

Support is given to each part of your body as it moulds to you, with more pliable areas for your neck and shoulders and higher density support for your lower back and hips, providing deep comfort and restful sleep.

Pressure is distributed evenly over the body allowing your veins and arteries to relax into their natural state and enabling blood cells, growth hormones and nutrients to flow freely round your body to repair soft tissue cells.

Laser cut castellations and a hypoallergenic Thermolast quilt combine to allow hot air to escape and moisture to evaporate - aiding comfort, reducing perspiration and dehydration.

#### **Invest in your fitness**

Gain maximum muscular and skeletal support, encourage bio-generation and cell generation while sleeping, keep your body hydrated and feel invigorated with deep sleep from Mammoth. Make the most of our exclusive offer to recharge your body overnight in 2010!

Mammoth Sport Ltd are offering RPA members **40% off** RRP on Mammoth Elite Sports Mattresses (or 15% off sale prices, whichever gives you the best price).

To order your mattress call Mammoth Customer Services on 0845 838 7757 quoting your *RPA membership number*.
